Head Teacher – Mrs Faith Stringer

The Role of the Training Link Governor

1. The Training Link governor is appointed by the governing body.
2. The role of the Training Link Governor is to assist the governing body to identify and respond to the individual and collective training needs of the governing body.

Courses for governors are offered to individual schools or groups of schools in their own locality, at times and days to suit them. This is the heart of the Link Governor Scheme.

3. The Training Link Governor liaises with the Governor Services Team about their governing body's training needs. Training Link Governors should:
 - keep their governing body informed about new courses, seminars, conferences and the regular item on the termly governing body agenda is useful for this
 - help identify the training needs of their governing body
 - liaise with Training Link Governors of neighbouring schools, if they wish, to organise joint training events
 - inform the Governor Services Team of any courses the governing body would like to arrange for themselves or with a group of neighbouring schools
